VOLUME 95

July to August 1984

ACADEMIC PRESS

LONDON ORLANDO SAN DIEGO  
SAN FRANCISCO NEW YORK TORONTO  
MONTREAL SYDNEY TOKYO SÃO PAULO

ISSN 0022-460X

# CONTENTS OF VOLUME 95

NUMBER 1, 8 JULY 1984

TOMAR, J. S. and JAIN, R., Thermal effect on frequencies of coupled vibrations of a rotating beam of linearly varying semi-circular cross-section . . . . .	1
IWATSUBO, T. and SAIGO, M., Transverse vibration of a rotor system driven by a Gardan joint . . . . .	9
NAIR, P. S. and RAO, M. S., On vibration of plates with varying stiffener length . . . . .	19
IRIE, T., YAMADA, G. and MURAMOTO, Y., Free vibration of joined conical-cylindrical shells . . . . .	31
ŚNIADY, P., Dynamic response of linear structures to a stream of random impulses in a "space-time" system . . . . .	41
HUNDAL, M. S., Equivalent absorption coefficient: A parameter for room sound pressure level prediction . . . . .	49
WILKINSON, R. T., Disturbance of sleep by noise: Individual differences . . . . .	55
OHTA, M., HATAKEYAMA, K. and YAMADA, H., A prediction theory of random level distribution based on a generalized difference type of Fokker-Planck equation and its application to environmental noise and vibration, I: Theoretical study . . . . .	65
OHTA, M., HATAKEYAMA, K. and NISHIMURA, K., A prediction theory of random level distribution based on a generalized difference type of Fokker-Planck equation and its application to environmental noise and vibration, II: Experimental study . . . . .	75
NATH, Y., DUMIR, P. C. and GANDHI, M. L., Non-linear axisymmetric transient analysis of an orthotropic thin circular plate with an elastically restrained edge . . . . .	85
VENTRES, C. S. and HOWE, M. S., Self-sustained oscillations of a shock wave interacting with a boundary layer on a supercritical airfoil . . . . .	97
YAMADA, G., IRIE, T. and TAGAWA, Y., Free vibration of non-circular cylindrical shells with variable circumferential profile . . . . .	117

## Letters to the Editor

YEOW, K. W., Variation with distance of aircraft noise impact parameters . . . . .	127
IRIE, T., YAMADA, G. and TANAKA, K., Natural frequencies of folded plates . . . . .	131
FARASSAT, F., Solution of the wave equation for open surfaces involving a line integral over the edge . . . . .	136

NUMBER 2, 22 JULY 1984

SRINIVASAN, R. S., RANGANATH, D. and THIRUVENKATACHARI, V., Vibration analysis of composite annular plates by an integral equation technique . . . . .	143
COHEN, R. and PORAT, I., Influence of load torque on stability of rotor driven by flexible shaft . . . . .	151
KITIS, L., PILKEY, W. D. and WANG, B. P., Optimal frequency response shaping by appendant structures . . . . .	161
CAMPOS, L. M. B. C., Some general properties of the exact acoustic fields in horns and baffles . . . . .	177

SANDOVER, J. and CHAMPION, D. F., Some effects of a combined noise and vibration environment on a mental arithmetic task . . . . .	203
NAKAJO, Y. and HAYASHI, K., Response of circular plates to thermal impact . . . . .	213
BRAZIER-SMITH, P. R. and SCOTT, J. F., Sound propagation over curved boundary surfaces . . . . .	223
THAMBIRATNAM, D. P., BALENDRA, T. and KOH, C. G., Transient response of underground structures to SH-waves . . . . .	237
IRIE, T., YAMADA, G. and TANAKA, T., Free vibration of a circular cylindrical double-shell system interconnected by several springs . . . . .	249
PANDY, M. G. and KOSS, L. L., Admittance-matched structures for the reduction of noise in tank making operations . . . . .	261

*Letters to the Editor*

LAURA, P. A. A., Comments on "Vibrations of polygonal plates due to thermal shock" . . . . .	281
DAS, S., Author's reply . . . . .	283
PRASAD, M. G. and CROCKER, M. J., A note on propagation of acoustic plane waves in a uniform pipe with mean flow . . . . .	284
TO, C. W. S., Author's reply . . . . .	289
YEOW, K. W., Penetration of aircraft noise into an open configuration airport terminal building . . . . .	291

NUMBER 3, 8 AUGUST 1984

NAGARAJAN, P. and ALWAR, R. S., A three dimensional approach to blade packet vibrations . . . . .	295
WELSH, M. C., STOKES, A. N. and PARKER, R., Flow-resonant sound interaction in a duct containing a plate, Part I: Semi-circular leading edge . . . . .	305
MINAMIHARA, H., NISHIMURA, M. and OHTA, M., A simplified method for detecting information on linear correlation latent in random noise or vibration waves . . . . .	325
SWAMINADHAM, M., DANIELSKI, J. and MAHRENHOLTZ, O., Free vibration analysis of annular sector plates by holographic experiments . . . . .	333
ALI, S. A., Stability of bending-torsional vibrations of curved thin-walled beams . . . . .	341
KAMBE, T., Influence of viscosity on aerodynamic sound emission in free space . . . . .	351
FORYŚ, A. and NIZIOŁ, J., Internal resonance in a plane system of rods . . . . .	361
ELWANY, M. H. S. and BARR, A. D. S., Optimal design of beams in torsion under periodic loading . . . . .	375
MURPHY, J. P., PERRIN, R. and CHARNLEY, T., Doublet splitting in the circular plate . . . . .	389
THOMAS, D. L., Vibration of a rectangular beam with a deforming cross-section . . . . .	397
BANERJEE, J. R. and WILLIAMS, F. W., Evaluation of efficiently computed exact vibration characteristics of space platforms assembled from stayed columns . . . . .	405
AIDA, T., Combination resonance of beams under traveling follower load systems . . . . .	415

*Letters to the Editor*

YAMADA, G., IRIE, T. and YOSHIOKA, I., Equations of vibration and sectional constants of thin-walled beams with alphabet-shaped cross-section . . . . .	423
---	-----

KANAKA RAJU, K. and VENKATESWARA RAO, G., Vibration, stability and frequency-axial load relation of short beams . . . . .	426
FEARN, R. W. and HANSON, D. R., Hearing level measurements of school-children aged 9-16 exposed to amplified pop music . . . . .	430
LY, B. L., A computation technique for the response of linear systems . . . . .	435

## NUMBER 4, 22 AUGUST 1984

KALME, J. S., ULDRICK, J. P., ROBINSON, W. A. and LARRABEE, D., Use of recompressed impulse response to identify sources and paths of structure-borne noise in wide flange I-beams and pipes conveying fluid . . . . .	439
PAŠIĆ, H. and HERRMANN, G., Effect of in-plane inertia on buckling of imperfect plates with large deformations . . . . .	469
REYNOLDS, D. D., BASEL, R., WASSERMAN, D. E. and TAYLOR, W., A study of hand vibration on chipping and grinding operators, Part I: Vibration acceleration levels measured on pneumatic tools used in chipping and grinding operations . . . . .	479
REYNOLDS, D. D. and FALKENBERG, R. J., A study of hand vibration on chipping and grinding operators, Part II: Four-degree-of-freedom lumped parameter model of the vibration response of the human hand . . . . .	499
REYNOLDS, D. D., BASEL, R., WASSERMAN, D. E. and TAYLOR, W., A study of hand vibration on chipping and grinding operators, Part III: Power levels into the hands of operators of pneumatic tools used in chipping and grinding operations . . . . .	515
ATADAN, A. S. and HUSEYIN, K., An intrinsic method of harmonic analysis for non-linear oscillations (a perturbation technique) . . . . .	525
LAURA, P. A. A. and GUTIÉRREZ, R. H., Vibration of plates elastically supported on a non-homogeneous foundation . . . . .	531
WARBURTON, G. B. and EDNEY, S. L., Vibrations of rectangular plates with elastically restrained edges . . . . .	537

*Letters to the Editor*

CARPENTER, P. W., A note on the hydroelastic instability of orthotropic panels . . . . .	553
TANI, J., Author's reply . . . . .	555
GOTTLIEB, H. P. W., Equivalence of a mode formula of Laura <i>et al.</i> and To . . . . .	557
PEARLSTEIN, A. J., On the equivalence of two sets of mode shapes in a cantilever beam problem . . . . .	559
WU, S. T., Frequencies of coupled translational-rotational systems including the effects of the impedance functions for the foundations . . . . .	561
ANNOUNCEMENTS . . . . .	565
HUMAN RESPONSE TO VIBRATION . . . . .	581
ERRATA . . . . .	585
INDEX TO VOLUME 95 . . . . .	587
